Joseph and Louise Simone
“Portraiture Not A Trend But An Art”
August 18, 2008

Radisson Airport Hotel, 2081 Post Road, Warwick RI
Registration 8:30 AM
Program from 9 PM to 4 PM

Louise and Joseph Simone have been involved in photography since 1975. They started at the bottom of the ladder when they bought their first studio. They took over a very high volume and average quality studio. They immediately realized that to weather any storm and to succeed they would have to work their way up by learning, growing and bringing their craft to a level of excellence in order to create their own signature. They have certainly established their signature and their vision remains quite meaningful today in our digital world. It allows them to distinguish themselves from the masses and continue to have a steady and varied demand as portrait photographers.

We will be showing through the use of quality lighting, body language, strong composition and the meaningful connection developed with the subject, truth and reality are revealed on both the part of the subject and the photographer as they each demonstrate what they are truly about. Having knowledge of appropriate lighting, graphic design as well as knowledge of ourselves and of others, we enable ourselves to attain the portrait’s purpose which is to create timeless image by revealing their personality with an authenticity. We will demonstrate through the use of today’s technological advances, how we can empower ourselves to push our limits far beyond what we thought possible.

For more information and/or to register contact Gary Thibeault at tebophoto@aol.com or call 401-596-5880. Due to the high demand for this program, please register early, space is limited.

The program is free to all PPARI Members Lunch is \$18.
Non Members \$100, lunch is \$18. A member of any other state, regional, or national photographic association the cost is \$50, lunch is \$18.
